

ORANGE GRIT™

HEAVY DUTY WALNUT BASED HAND CLEANER

IMPIREACHT CHEMICALS
ORANGE GRIT PRODUCT INFORMATION

Product information and uses:

ORANGE GRITTM

HEAVY DUTY WALNUT BASED HAND CLEANER

Orange Grit is a natural orange and walnut based heavy duty hand cleaner for the safe removal of automotive grease, ink carbon and heavy soiling from hands.

Orange Grit contains a naturally occurring citrus solvent to cut through the toughest soiling.

Orange Grit has been designed as a fluid-based hand cleaner with grit hand cleaner to help cut down on having to clean work basins and sinks after cleaning hands. The quality of the product speaks for itself and the time saved by using a fluid base as opposed to paste based hand cleaners is significant.

Main features:

1. Sustainably sourced natural ingredients
2. Low evaporating solvents for safer use
3. Concentrated formula for low cost usage
4. Wide spectrum formula to suit general consumers through to tough workplaces
5. Pleasant fragrance
6. Deodorises as it cleans
7. Moisturises and conditions hands as it cleans

Directions for use

1. Dispense directly onto hands using one plung from dispenser.
2. Work evenly over hands, particularly over stains or heavy soiling for 20-30 seconds or as long as required.
3. Rinse with water, and repeat if required.
4. **Orange Grit** may be used as a water-less hand cleaner, as above, but using rags or paper towels to wipe hands instead of water-rinsing.

Orange Grit has been hugely popular in the New Zealand Rural Sector.

Please note: All of our products have a 60 day money back guarantee and are endorsed by businesses and farmers nationwide so give them all a go, you have nothing to lose and everything to gain.
