Dear Glenn,

## RECOGNITION OF DAIRY MAINTENANCE COMPOUND

The product **Super Strength Moss Kill** has been considered in conjunction with the independent assessment reports provided and determined to satisfy the requirements of regulation 30(3) of the Animal Products (Dairy) Regulations 2005 and regulation 43 of the Raw Milk for Sale Consumers Regulations 2015, when used in accordance with the label.

This recognition of the compound is subject to the following conditions:

1. Use per label instructions for structural surfaces in and around farm dairies
2. Not for use on milk contact surfaces
3. Not for use on equipment within farm dairies
4. Must be used in a manner that ensures no contact with milk, liners,
5. Should incidental contact with equipment or milk contact surfaces occur then the affected item must be cleaned

Where this **recognition** is stated on the product label, the statement "MPI recognised for use in dairy processing" is to be used unless an alternative is agreed in writing by MPI.

Should this product be determined to be unsatisfactory when used as per the label or as per any recommendation provided by the manufacturer or an agent of the manufacturer, MPI may amend or withdraw this recognition.

### Review

This recognition is valid for a maximum period of 5 years but is subject to periodic review and may be withdrawn at any time should the Director-General determine that there is sufficient evidence that the products are not fit for the purpose for which this recognition applies. You will be issued a letter prior to the review date, which is set at **30 October 2025**, but you are responsible for ensuring that this review is completed if you wish to retain MPI recognition of the above dairy maintenance compound.

Yours faithfully
